Ten21 studios

- An "out of town" fully commercial recording studio based near Maidstone, in Kent, less than an hour from London.
- Access to major road and rail links within 1.5 miles.
- Ample off-road parking.
- A comprehensive range of accommodation, all within a mile of the studio. From local B&B's and Travel Inn to a 4-star Marriot hotel. Corporate rates available.
- A variety of pubs and restaurants are on offer in the local village of Bearsted.
- A breath of fresh air from recording in "The Smoke".

Services

Ten21 has been designed to be as flexible and as versatile as possible in the range of services it can provide.

- Album Projects
- Mixing
- Music Production
- Audio Editing (Specialists in Vocal tuning & timing, drum editing and guitar reamping)
- Voice Overs
- Sound to Picture
- CD Mastering
- Band Demos

Coming soon

5.1 Surround Mixing

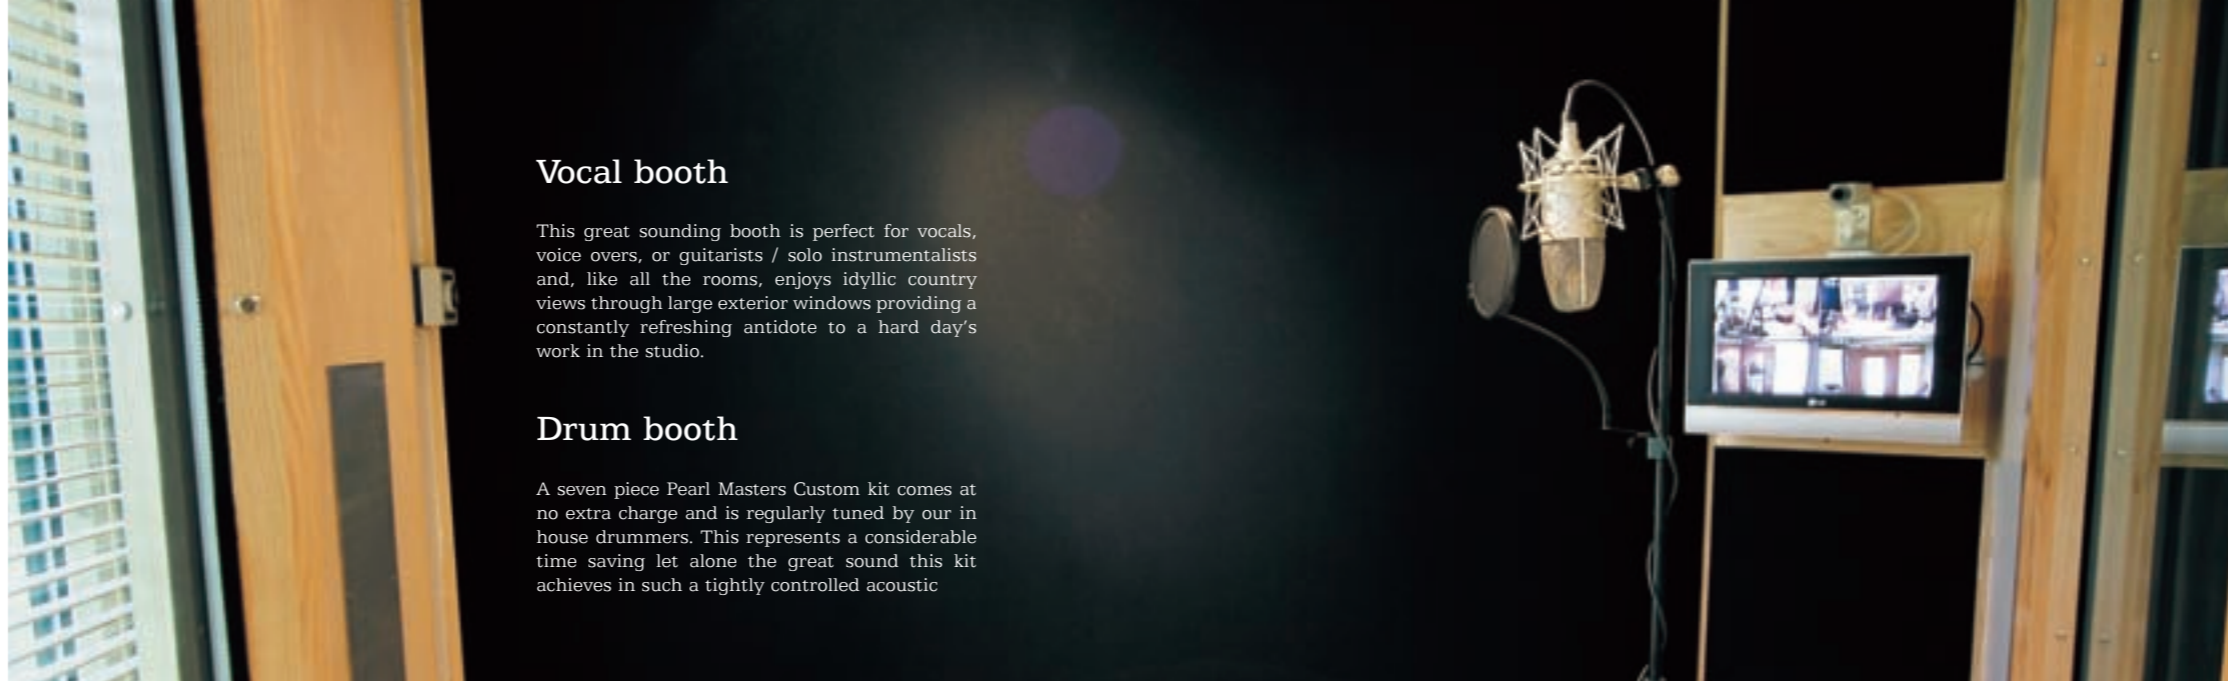

Control room

A perfect marriage of analogue and digital is achieved by teaming the hugely popular Audient ASP8024 with the analogue sound of RADAR, invariably the first digital choice of ex-analogue converts and easily appreciated by listening through the acclaimed MGK monitoring in a state of the art, modern control room designed by Recording Architecture.

Fine tooth audio manipulation is facilitated by Digital Performer 9.52 on the latest Mac Pro platform with an extensive range of plugins (see equipment list) making easy work of editing, comp'ing, overdubs and mixing.

Studio networking provides for seamless transfers of projects between the two recording mediums and broadband access to all areas.

The large LCD screen serves the dual purposes of sound to picture or CCTV playback. In addition to the large windows between rooms, all rooms are CCTV ready with flat screens and close mounted cameras feeding images anywhere in the studio allowing close up visual feedback between players or; sound to picture throughout.

Vocal booth

This great sounding booth is perfect for vocals, voice overs, or guitarists / solo instrumentalists and, like all the rooms, enjoys idyllic country views through large exterior windows providing a constantly refreshing antidote to a hard day's work in the studio.

Drum booth

A seven piece Pearl Masters Custom kit comes at no extra charge and is regularly tuned by our in house drummers. This represents a considerable time saving let alone the great sound this kit achieves in such a tightly controlled acoustic

Mixing

Audient 8024 Console (24 bus console with 80 channels@ mixdown)

Recording

Digital Performer 9.52 DAW
Protools 12
Logic X
